### Using the worksheet:

- The worksheet can be done for homework or in class.
- In Exercise 1, students connect activities to their places by drawing a line to connect the two items.
- In Exercise 2, students have to write the vocabulary under the correct heading. Student may not know all the words in the box but ask them to guess. After checking their answers, you may need to teach some of the vocabulary items.
- In Exercise 3, the students have to use the verbs in the box to complete the sentences. The 3 activities together work on the places, activities that take place in these places and teach some associated vocabulary.
